Former :

- **Robert LISKOUNIG (RL), Austria** _____

WG1 strategy and Outputs

- Analyze how risk assessment is being used and incorporated in policy development and decision making within the road authorities.
 - Output : Summary report and recommendations for road authorities
- How public acceptance of risk is integrated and formalized, if so, in the policy development and the decision making process.
 - Output: Integrated in the summary report.

WG1 Progress and future activities

- International survey
 - A joint WG1 and WG2 international survey has been conducted early 2013 via PIARC members
 - Results have been analyzed over the past months and presented at Merida meeting
- Case studies
 - International case studies have been proposed in Merida
 - Will be developed over the next weeks from experience of WG1 and TC members.
- Summary report
 - Will be derived from both survey and case studies
 - Table of content has been drafted in Merida
 - Writing will initiated over the next months, in preparation for the 2 next TC meetings in Italy (Spring 2014) and China (Fall 2014).
